OBJECTIVE:

In this Hotel, we want you to feel well and at home. It is our goal to extend to every guest our cordial welcome. We want you to leave our hotel in the highest degree of guest satisfaction.

HISTORY

In the year 1968, Alfred und Elsa Kunz, purchased the „Hotel Post“ in this central and strategic location. After several renovations the „Hotel Post“ gradually developed to a hospitality leader in the region.

In 1990, the second generation in the family, Peter and Edith Kunz, took over the management and leadership of the hotel and gastronomy operations. In 1999, a new hotel wing with 36 rooms, a conference room and wintergarden were opened to upgrade the “Hotel Post” to a 3 star superior operation. The following years the “Hotel Post” undertook further renovations, improvements and extensions.

To meet high environmental standards, we invested substantially in LED technologies, a heat recovery plant and a state of the art technical machinery operation. Meanwhile, the third generation in the family, Rico Kunz and Patricia Baer took over the management and leadership of the hotel and gastronomy operation.

TALENT AND EMPLOYEES

We continuously strive to improve quality standards and in line with our strategic plan, we are proud to operate with long time employees, partially over 20 years.

Development of talent and apprentices in different professions through internal and external education programmes are part of our daily activities.

Who stops getting better, stops being good.

HEIDI LAND
